This issue of *Catalan Journal of Linguistics* contains a selection of nine contributions that were presented at the workshop “Nominal inflection and word-formation at the phonology-morphology interface” (NoWPhoMo), which took place in early 2024 at the Universitat de Barcelona (January 25) and at the Universitat Autònoma de Barcelona (January 26), as part of the coordinated research project *Native and non-native phonology: Language contact effects and interaction with other components of grammar*, PID2020-113971GB-C21 and PID2020-113971GB-C22. The edition of the volume was handled by project PID2020-113971GB-C22.
